Tamil Nadu Teachers Education University

The Government of Tamil Nadu enacted Act No.(33) of 2008 to provide for the establishment and incorporation of Teachers Education University in the State of Tamil Nadu for promoting excellence in teachers education. Further the Act came into effect from 1.7.2008 by a Gazette Notification issued in G.O.M.S.256, Higher Education (K2) Department, dated 25.6.2008. This University is unique in nature relatively to the other Universities since its assignment is to promote excellence in teacher education and produce dynamic and smart teachers for the benefit of the society and the nation at large.

The University has established the following six departments and appointed one Professor for each department.

1. Department of Pedagogical Sciences
2. Department of Value Education
3. Department of Educational Psychology
4. Department of Educational Technology
5. Department of Curriculum Planning and Evaluation
6. Department of Educational Planning and Administration

The basic necessity for all the educational institutions in the country is to have intelligent, dynamic, excellent and brilliant teachers to disseminate the knowledge in the field. Without them no educational institution can survive and excel in any field of knowledge. It is such a divine task and it is really proud that it has to monitor all 642 affiliated colleges of education including government, government-aided and self-financing colleges in whole of the Tamil Nadu State.

Vision

The unique vision of Tamil Nadu Teachers Education University is to promote excellence in teacher education and to carryout extensive research in teacher education and also produce Qualitative Research output for the benefit of students, Society, Nation and Mankind at large.

Mission

To produce brilliant, intelligent and dynamic teachers for the benefit of one and all.

Motto

ஒதி உணர்ந்து பிறர்க்கு உரை is the motto of the university.

English Translation of the Motto "Learn, Realize and Teach"

About the Learning Resource Center

The Learning Resource Center was established in July, 2022. The Learning Resource Center (LRC) is providing various resources to the active learners (Teachers and Students) through online and offline. The TNTEU- LRC is providing free WiFi facilities to the learners for updating their knowledge and searching various e-resources i.e., e-journals, e-books and MOOC – SWAYAM, Coursera, Udemy, Udacity, and Edx, etc.,. The TNTEU-LRC is also offering various offline resources in on campus and off campus. The University LRC and other center and cells invite various multi disciplinary resource persons from various corners of the nation and world. So, the learners are getting affordable cognitive knowledge, affective knowledge and psychomotor skills through TNTEU- LRC. TNTEU – NSS, YRC, RRC and other Centers and Cells are organizing various direct community involvement (Awareness, blood donation, medical campaign, village adaption and etc.) or interrelations activities. These resources may possess tremendous potential for being organized in their formal and informal education. The TNTEU-LRC is providing bookish knowledge and hands on training experiences for learners and it helps the learners all round growth and development in their life.

National Workshop

In the 18th century we had industrial revolution in Great Britain and it impacts on other parts of the world. On March 7, 1876, Alexander Graham Bell received a patent for his revolutionary new invention: the telephone. In the 21st century all the countries realizes technology revolution and it influences for all the fields of engineering works, Agricultural works, Banking sectors, and education sectors. Based on the technology revolution we have smartphone for all kind of peoples as well as, it is very significance among the people and pupil. Smartphone provides better audio and video communication, learning options to users, great exposure to the latest things, ways to personality development, simple ways to access applications, ideas to succeed in business, platforms to grow their applications and more.

Besides, last ten years and above technology spreads in higher education level but, now-a-days we have seen that the technology influences in school education also.

Our MHRD, Government of India initiatives "DIKSHA"(Digital Infrastructure for Knowledge Sharing) which is the Teachers National Platform. Now, based on the digitalization of the content the School of Education, Government of Tamil Nadu has implemented Quick Response code (QR) for students of classes I, VI, IX, and XI, who had to tackle new curriculum. The remaining classes II, VII, X and XII also implemented the same system in Tamilnadu schools from 2019-2020 onwards. QR code may create and energize teaching and learning process among the teacher and students community. The utilization of QR code the student's revamps and encourages for getting extra digital content from their text books provided by school education department and hosted on DIKSHA.

The QR code implementation knowingly or unknowingly develops our students and teachers skills. The skill development also provides employment opportunities for our students.

Based on QR code implementation in the school text books, we give hands on training for creating and utilizing Quick Response (QR) code and it empowers the school teachers and student teachers for their subjects. Before, we utilize the product and we know details or depth content knowledge on the same. This workshop makes great contribution to the participants who is making own QR code in future. So, I would like to organize a workshop on this theme.

Objectives of the Workshop

The workshop develops all the teachers and student teachers who participate will be equipped with advanced digital technology. It changes the teachers and student teachers enable, accelerate and amplify solutions in realm of teacher education. It will aid teachers to learn and train themselves for which assessment resources will be available in QR format. It will help teachers to create or frame own QR code and get hands on training in proper perspective. Then, the teacher present and future teaching community makes a content, profile, in-class resources, assessment aids and news with QR code system.

The major aim of the workshop is balancing the teachers and student teachers between book learning and QR code learning systems. It makes feel for getting information in our palm. So, the workshop makes easy for participants to get the knowledge and understanding of the Quick Response (QR) coding book for the elementary, secondary, higher secondary, etc.

In this workshop partially fulfill of "DIKSHA", MHRD, Government of India visions. It also helps professional development for school teachers.

Sub themes

- Quick Response Code App creation and utilization (QR Code)
- Content Creation on YouTube Format
- Online Assessment Tools
- Canva – Online Graphic Design Tool

Target Group

College of Education Assistant Professors/ School Teachers/Scholars/M.Ed&B.Ed Students and School Students are eligible to apply.
