TRAINING AND PLACEMENT CELL

The Tamil Nadu Teachers Education University set up a Placement Cell aiming at cater to the employment needs of students, It creates an atmosphere and orients the requirements for employability not only in Schools and Colleges, but also in various sectors. The Placement Cell focuses on skills which are to be developed among the job seekers. The Placement Cell consists of leading experts members in various fields who are providing guidance to the students on creating a clear career plan, setting realistic career goals and a planned timetable on professional development for their future betterment through job. Exclusive training programmes including soft skills and aptitude, online tests, Teaching practices / methodology etc., are being imparted to students to make them

to acquaint skills in broader areas. The Cell ensures to provide an optimum opportunity for all the students to fetch the most suited placement for them. It also helps to transform young minds into socially responsible individuals who can inspire, innovate and overcome challenges in the global environment to create opportunities themselves to explore and demonstrate their potential, adopting innovative practices to enhance teaching professional competencies.

Objectives

The following are the objectives of the Placement Cell:

- To prepare the students to obtain employment opportunities immediately after completion of their programme of study;
- To arrange suitable experts to orient the students regarding the avenues in front of them for better placement;
- To provide hands-on-training to the students on soft-skill development and specific techniques to face interviews;
- To train the teacher-educators on placement services in order to make the students employable.
-

Training Activities

Training and Placement Cell undertakes the following activities for the students to achieve the desired results and set targets.

- Create opportunity for the students to gain skills specific for their subject or industry of choice
- Train the students on "Personality development"
- Practice to be given on interview skills
- Promote the skills of communication, employability, problem solving and teaching required to land on their dream careers

- Motivate to enrol them on online courses to enhance their skills for employability
- Equip students with life skills
- Placement of students in Educational Institutions through campus recruitments, pooled campus and off campus recruitments
- MOUs – with various Universities, Educational Institutions, Companies and Schools involved in Education
- Arrange Counselling on job opportunities.
- Guidance to the students on various competitive exams
- Organise workshops/seminars/symposium/conferences/camps for promoting employability skills and placement services.
